

FOR PROPERTY DEVELOPERS

**We build what Nigeria's
banks run on.
Now we're building for you.**

Live in Rehoboth MFB, Sulspap MFB, Weston-Charis MFB and more.

THE PROBLEM YOU LIVE WITH

Sound familiar?

A customer wants your property but can't pay in full

Your records live across WhatsApp, Excel and paper

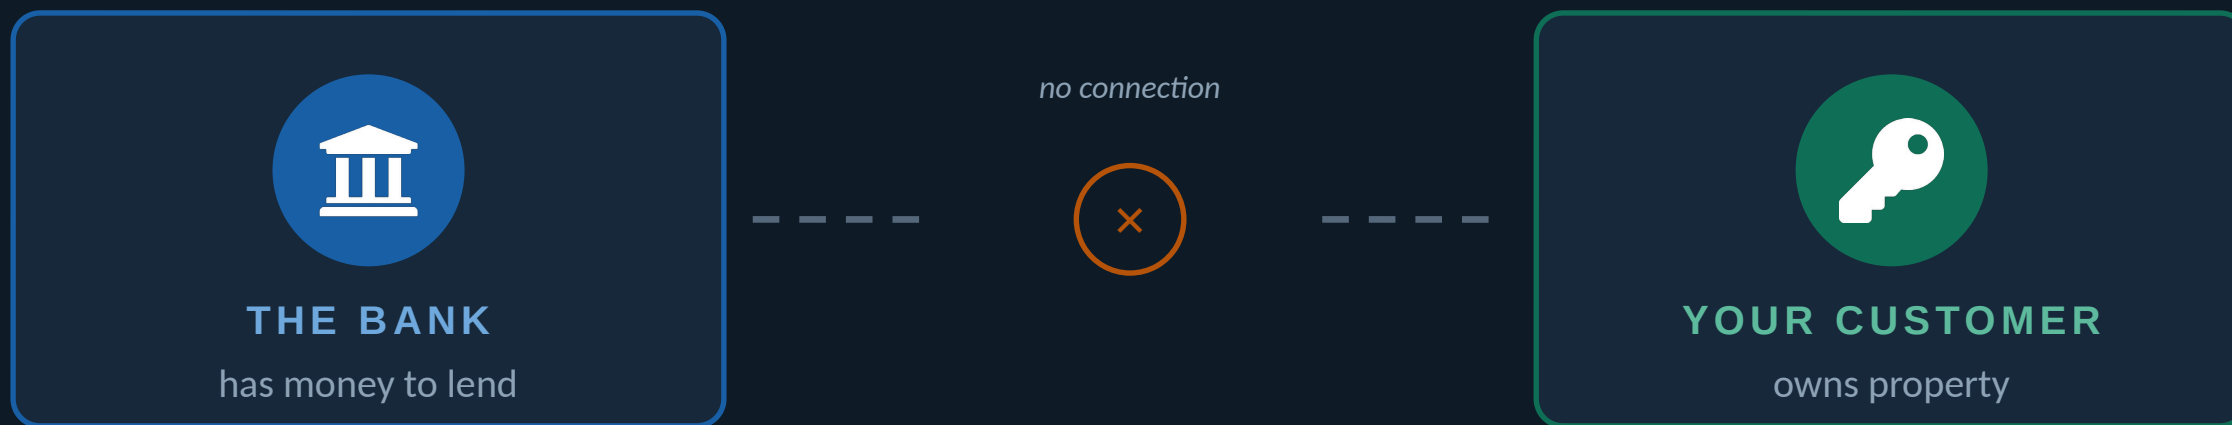

Your diaspora buyers call the office again and again

And the value your customers own just sits there, doing nothing, for them or for you

Your properties are modern. **Everything around them isn't.**

THE INSIGHT

We work inside the banks. So we saw the gap.

The records that connect them don't exist. **AtomAfrica builds them.**

WHAT WE DO

We digitize your real estate company.

One system, under your brand.

Your properties

Your customers

Your payments

Your records

Your own network. Not a listing on someone else's marketplace.

THE CUSTOMER APP

Everything your customer needs. Your name on it.

✓ Apply & KYC

✓ Buy property

✓ Add money

✓ Pay progressively

✓ Transfer

✓ Secondary-market
resale

✓ Request a loan

✓ Withdraw

✓ Notifications & email

✓ Transaction history

✓ Referrals

✓ PIN & OTP secured

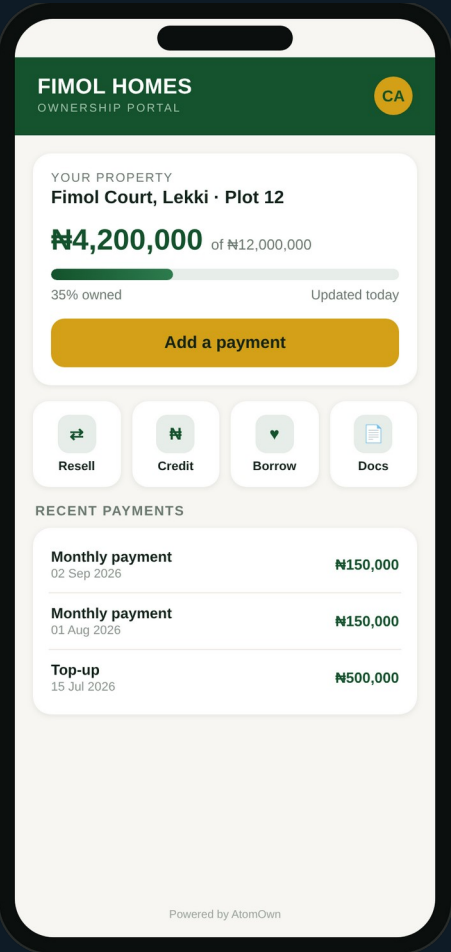

One app. Your brand. Every step recorded.

YOUR BRAND, YOUR APP

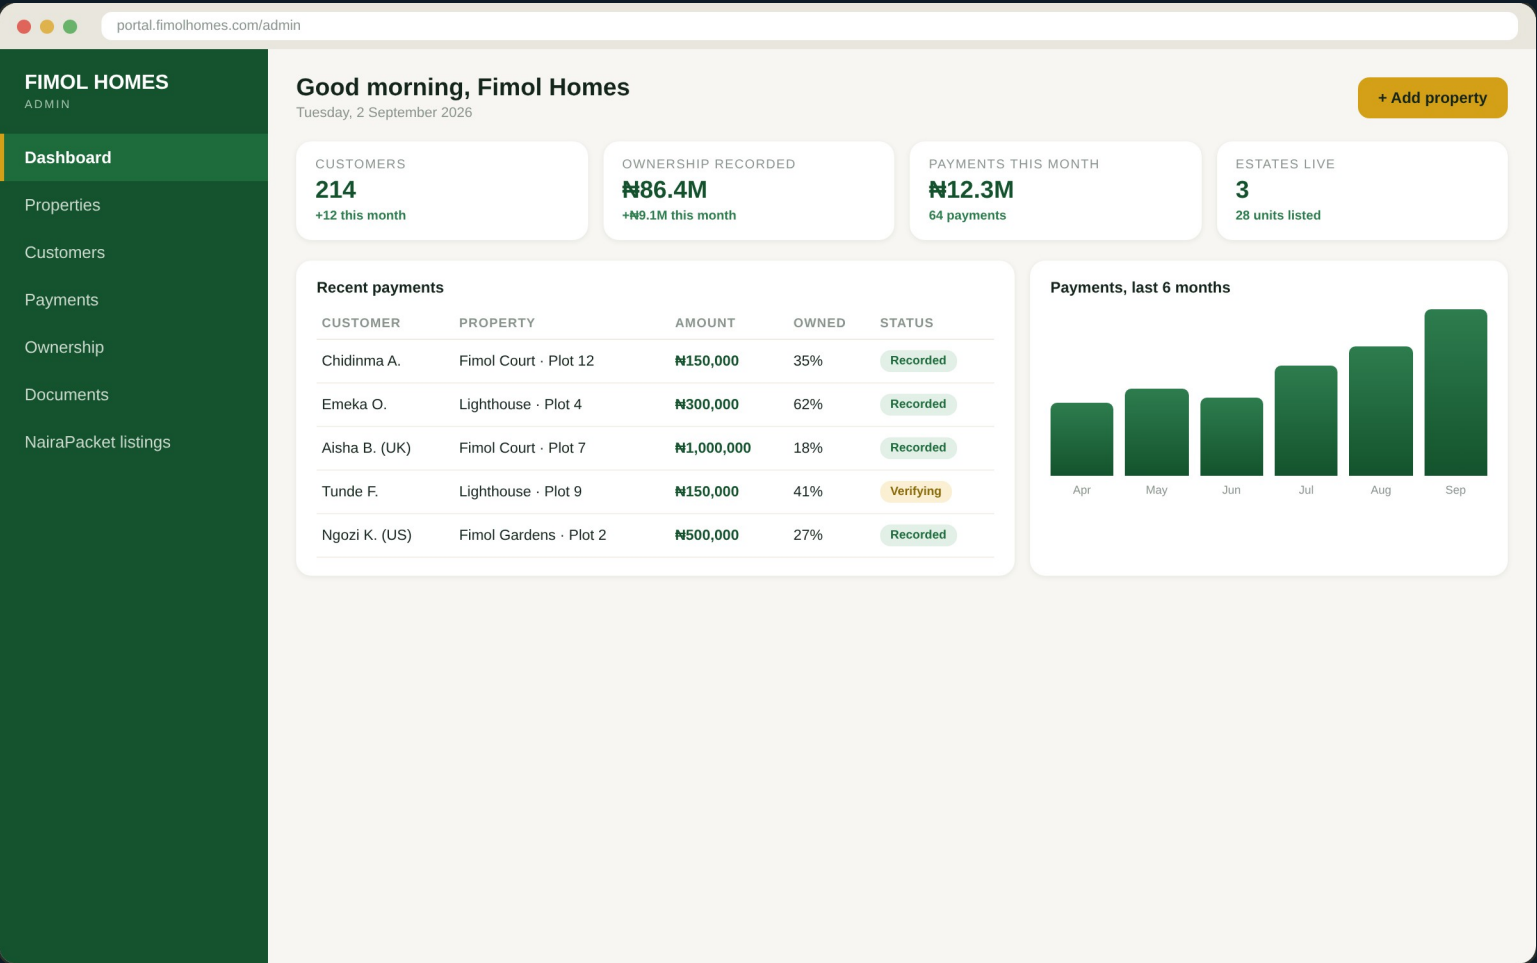

Sample data · shown as an example

See it with your name on it.

YOUR CUSTOMER'S APP

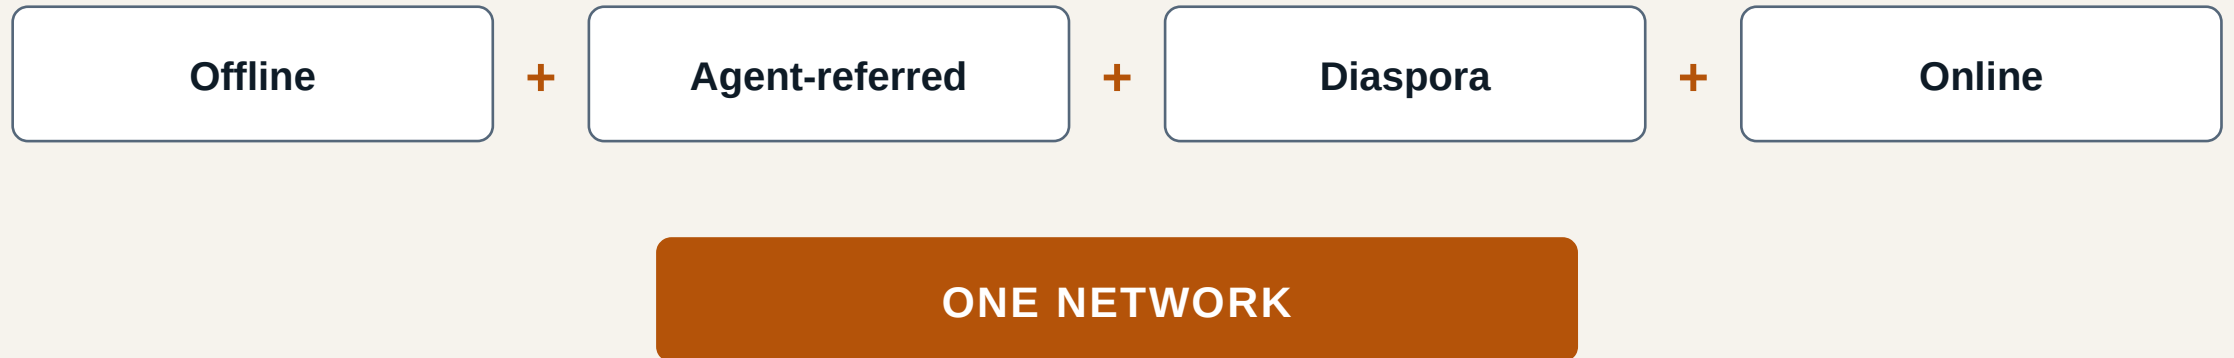

YOUR ADMIN DASHBOARD

MIGRATION

Start with the business you already have.

Existing customers, every estate, historical payments. Migrated in.

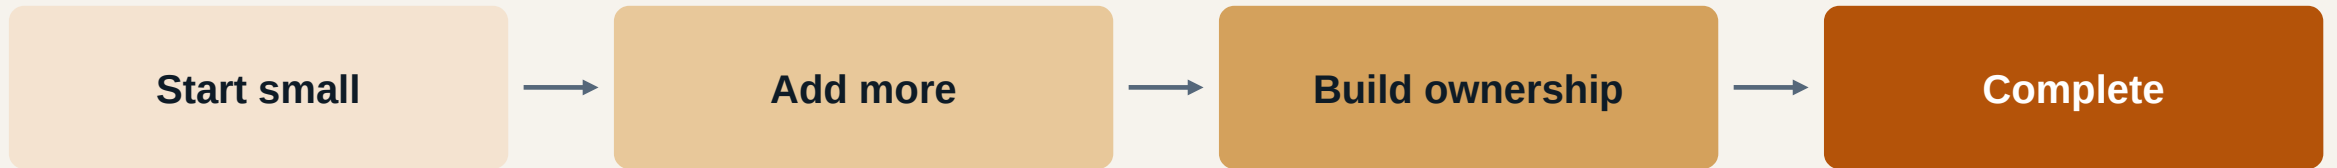

Diaspora customers stop calling. **They just log in.**

PROGRESSIVE OWNERSHIP

Few can pay in full. Many can pay over time.

You set the entry price. Customers build ownership month by month.

Stop losing buyers who **can't complete today.**

TRUST

Trust starts with the property.

Before inventory goes live, we verify:

Title & documentation

Legal verification

Ownership records

Property information

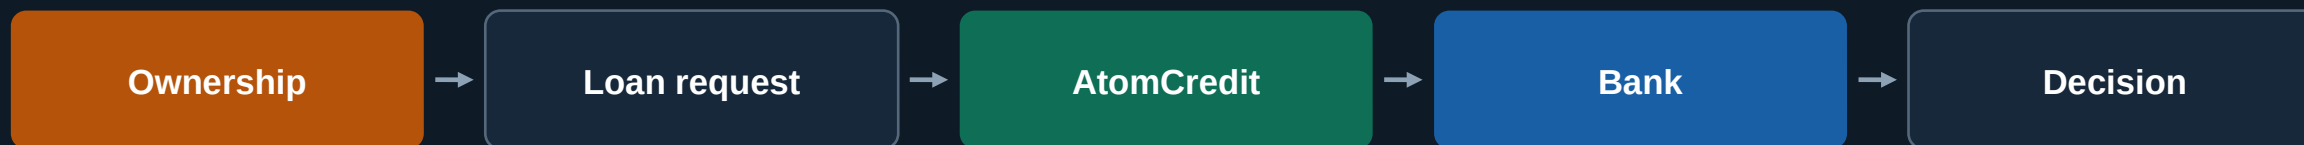

Independent professionals do the verification.

This is why a **bank can trust** what your network records.

THE PAYOFF

Proper records open the door to the bank.

Recorded, verified ownership can reach a participating bank for financing.

The bank decides eligibility, amount and terms.

Customer gets financed. **You get paid now. The bank waits.**

NEW INCOME

Sell once. Earn through the lifecycle.

Property sales Your price, to a wider pool

Transfers & resales Your service fee, set by you

Documentation Your service fee, set by you

Lifecycle services Collected digitally

**You set the fees.
We collect them.**

Your network becomes an **income line**, not a cost line.

NAIRAPACKET

When you want more buyers, we bring them.

List inventory on NairaPacket and reach buyers you'd never meet.

10%

only when we sell

**Nothing to list.
Your own network stays yours.**

Extra demand, never competition.

EVIDENCE

Evidence, not promises.

200+

buyers building ownership

~~£~~30M+

ownership facilitated

~~£~~5M+

borrowed against ownership

12+

properties listed

5+ developer partners already on board. The model works.

FOUNDING DEVELOPER OFFER

Building this with 10 companies. Free.

~~£~~0 setup. ~~£~~0 monthly.

AtomOwn 1.5% on transactions through your network

NairaPacket 10% only when we sell for you

Payment processing applies separately where applicable.

We earn when you transact and when we sell for you.

We build the rails. You run your business on them.

We came from inside the banks. That's why we can connect your customers to finance.

Free to start. Only 10 founding spots.
